IIBM Institute of Business Management

"As someone who believes that 'Your Mind Is Not A Locker, Do Not Store Anything In This, and Let New Ideas Always Penetrate,' I have always embraced continuous learning. This mindset inspired the creation of IIBM Institute of Business Management. After identifying significant talent gaps within organizations and the lack of accessible, continuous education for professionals, I envisioned IIBM as a solution to bridge these gaps. Through the development of carefully designed online courses and a curriculum that addresses specific skill shortages, I created a comprehensive learning ecosystem. Starting with just a small team and a few courses, IIBM has now grown into a thriving organization, with over 150 dedicated members and a wide variety of 44+ courses and 46+ subjects. My mission remains clear: to empower professionals by providing them with the knowledge and skills necessary to excel in their careers and contribute to meaningful change in the business world."

"I welcome you to IIBM Institute, where you can acquire quality education across various subjects, enhancing your employability and entrepreneurship skills".

About IIBM Institute Of Business Management

Doctor of Business Administration DBA

Program Information

A Doctor of Business Administration (DBA) is a professional degree representing the highest qualification in management.

The Doctor of Business Administration (DBA) program is designed for professionals who want to further their career with the most advanced business degree program. The DBA program addresses the learning needs and objectives of senior business managers, consultants and university professors. Its primary objective is to produce graduates who can contribute to the advancement of their professions and to the expansion of knowledge and awareness of contemporary strategic issues and practices.

Our curriculum has a two-tiered focus. Students examine current theories, practices, and issues in business; train in research methods; and study the relationships between business and social and global issues. We believe doctoral students must be adept in all these areas to be successful contributors to the expansion of knowledge and improvement of business practices. For the Research Methodology, students conduct original research on a topic of current importance and personal interest. The thesis should impact and help illuminate the strategic issues they face in their professions.

The program encourages students to accept the added responsibility of a shared commitment to the advancement of their professions and to upholding the highest ethical standards in the private or public sector.

Course: DBA

As a current student in the DBA program with EIASM Through IIBM Institute Of Business Management, I've been truly impressed with the depth and quality of the curriculum. Course is designed to tackle real-world business challenges, and I'm already applying the concepts to my day-to-day work. The faculty are incredibly supportive, always available to provide guidance and feedback. What I appreciate most is the flexibility—it allows me to keep progressing in my career. This program is equipping me with the tools and insights I need to grow as a leader, and I highly recommend it to anyone looking to advance in their field!

Nabil Mansour

Director of Operations, Faculty of Medicine, American University of Beirut

I'm excited to be part of the DBA program at EIASM, in collaboration with IIBM. From the start, I've felt a strong sense of fulfillment, knowing this program will help me grow both personally and professionally. The faculty is inspiring, passionate, and dedicated to our success. The program's emphasis on research excellence, especially in healthcare and AI, has reignited my passion for innovation. The international collaboration with IIBM has broadened my perspective and connected me with brilliant minds globally. I'm truly grateful for this opportunity and look forward to the future, confident it will shape my career and aspirations.

Roland Habre

Global Sales Director - Manufacturing Industry.

I am grateful for the knowledge gained from EIASM through IIBM Institute. The Institute's curriculum design encompasses almost all relevant topics that any modern business strategy needs. Highly commendable expertise and professionalism among faculty members guarantee valuable insights and practical knowledge. IIBM's emphasis on leadership development significantly upgraded my strategic thinking and decision-making. Indeed, this is further assured by the emphasis on industrially relevant applications and case studies that prepared me for excellence in a dynamic business environment. I truly appreciate the commitment of the Institute to a culture of excellence and lifelong learning.

Dr. Syed Nazim Obayed

Technical Education Venture of Unique Group of Companies Limited, from Bangladesh

It's my sincere gratitude to European Institute of Applied Science and Management (EIASM) through IIBM Institute Of Business Management for giving a wonderful opportunity to complete my Doctor of Business Administration (DBA) programme remotely. I found all faculties are excellent and administrative staffs are very cooperative throughout the course. EIASM has created an environment to produce knowledge studying from anywhere which is the main reason to choose the programme. I explored the role of soft skills and cognitive skills for the engineering graduates in the context of Bangladesh. I am also very thankful to my supervisor. All the best wishes to EIASM every now and always.
